

2026 ONLINE MAGAZINE EDITORIAL CALENDAR

ISSUE THEME						
JANUARY	FEBRUARY	MAY	JUNE	SEPTEMBER	OCTOBER	NOVEMBER
Process Automation & Instrumentation	IIoT & Digital Transformation	11th Annual Industrial Automation & Control Trends Report	IIoT & Digital Transformation	Process Automation & Instrumentation	3rd Annual Cybersecurity Trends Report	IIoT & Digital Transformation
ARTICLE TOPICS						
Process control, batch control, process safety, DCS, operator interface, SCADA & RTU, instruments and sensors, final control elements and electrical systems	IIoT, IT/OT convergence, Industry 4.0/5.0, smart manufacturing, digital twin, virtual and augmented reality, additive manufacturing, artificial intelligence, autonomous vehicles and wearables	A compilation of the automation trends affecting process industries, manufacturing, industrial machine building, utilities, operations, engineering, workforce development and digital transformation.	IIoT, IT/OT convergence, Industry 4.0/5.0, smart manufacturing, digital twin, virtual and augmented reality, additive manufacturing, artificial intelligence, autonomous vehicles and wearables	Process control, batch control, process safety, DCS, operator interface, SCADA & RTU, instruments and sensors, final control elements and electrical systems	A compilation of the forces shaping cybersecurity and safety of industrial environments, including OT cybersecurity awareness, incident response, ISA/IEC 62443 guidance and compliance, and more.	IIoT, IT/OT convergence, Industry 4.0/5.0, smart manufacturing, digital twin, virtual and augmented reality, additive manufacturing, artificial intelligence, autonomous vehicles and wearables
EDITORIAL CONTENT DUE						
15 December	15 January	15 April	15 May	15 August	15 September	15 October
AD MATERIALS DUE						
5 January	2 February	1 May	2 June	2 September	2 October	2 November
PUBLICATION DATE						
15 January	19 February	15 May	15 June	15 September	15 October	16 November
